TOP REASONS TO BUY FOR IT PROFESSIONALS—VIP/SUBSCRIPTION

Make it happen anywhere—Empower everyone in your organization to be as productive on the go as they are in the office. Acrobat Standard DC is built for today's cloud-connected, multi-device world, so users can access files and essential PDF tools on their desktop, mobile device, or web browser and take action from anywhere.

Simplify tracking and management—Give your teams better visibility into the documents requiring their attention or documents they have shared with others to view, review, or sign with the expanded Home view.

Get unmatched security—Help mitigate PDF-based attacks with multiple built-in defenses and advanced security techniques, such as sandboxing.

Protect sensitive information in documents—Help safeguard company information by setting default document security properties for your organization. Teams can add passwords and permissions to prevent unauthorized access, copying, or editing. Or they can permanently remove visible and hidden data before sharing. All security measures and protections move across devices.

Replace ink signatures—Eliminate expensive, paper-based signing processes while promoting compliance and security. Every Acrobat DC subscription includes Adobe Sign—a complete workflow for sending, signing, tracking, and managing electronic signatures.

Make team collaboration easy—Enable teams to send and track files right from Acrobat Standard DC. Senders can share a link to a PDF file to view, review, or sign and get notified when others take action. Recipients can access the PDF from any device—no need to install software or sign in.

Maximize your Microsoft investment—Increase team productivity and get more out of your Microsoft investment by adding timesaving PDF tools to the Office 365 applications your organization relies on. With Acrobat DC and Document Cloud services, teams can create high-quality, password-protected PDF files that preserve fonts, formatting, and layouts directly from Word, Excel, and PowerPoint. Teams can also convert PDFs to editable Word, Excel, PowerPoint, and RTF files, as well as create, combine, and organize PDFs directly inside SharePoint and OneDrive.

Simplify software management and reduce compliance risk—Easily deploy, manage, and add new seats through the Admin Console. Keep software costs predictable, and get ongoing access to new features and security updates to deploy on your own schedule, at no additional charge.

Streamline deployment—Simplify deployment and updates with support for Microsoft SCCM/SCUP and Apple Remote Desktop. Get free Adobe tools—such as the Acrobat Customization Wizard and Adobe Creative Cloud Packager—to speed up installation and configuration and to deploy Acrobat and Creative Cloud apps together.

Support virtual environments—Deploy Acrobat DC subscription in virtual environments with named user license support for Citrix XenApp and XenDesktop, VMware Horizon, Microsoft App-V, and Microsoft Windows Terminal Server (WTS).

Maximize savings—The Adobe Value Incentive Plan (VIP) is a subscription licensing program offering simple and secure management capabilities, flexible terms, and discount levels that increase as you make additional purchases. Qualified members can save even more with VIP Select.

Make it happen anywhere—Be just as productive and collaborative on the go as you are in the office. Access your files and tools when and where you need them, so you can complete tasks whenever you need to make them happen.

Work better together on any device—Sharing PDFs and gathering comments is as simple as sending an email—but with far more control, full tracking, and no messy attachments. Recipients get an email with a link to your PDF. They just click to open, view, comment, and sign. No need to log in or install software. And you get notified when others take action on your documents.

Manage all your work in one place—Get better visibility into the documents requiring your attention or documents you have shared with others to view, review, or sign. The expanded Home view keeps you on top of things, whether you're on desktop, mobile, or web.

Work more efficiently in Microsoft Office—Create high-quality, password-protected PDF files that preserve fonts, formatting, and layouts directly from Word, Excel, and PowerPoint. And convert PDFs to editable Word, Excel, PowerPoint, and RTF files.

Complete forms faster—Fill out and sign PDF forms faster with form field detection powered by Adobe Sensei, and even share locked copies that become invalid if edited.

Search across all your files—Search all your Acrobat DC files at one time, including files you sent, received, viewed, or signed.

Work with Dropbox, Box, OneDrive, and Google Drive—Access, edit, and store files in your Dropbox, Box, Microsoft OneDrive, or Google Drive account from Acrobat Home across desktop, mobile, and web.

Create protected PDFs—Create high-quality PDF files from Acrobat or popular Microsoft Office apps. Add restrictions to prevent others from copying, editing, or printing sensitive information.

Always get the latest innovations—Subscribe to get ongoing access to the latest features, security updates, and upgrades from the company that invented PDF—at no extra cost.

Rely on Adobe PDF—Millions of organizations have produced billions of Adobe PDFs worldwide because they trust Acrobat to help them prepare, protect, and share their critical documents.
