

Question Types and Options

The following sections explain each question type, how to set correct answers, and the available question options.

There are several question types available:

- Multiple Choice
- Short Answer
- Numeric Response
- True/False
- Essay
- Priority Ranking
- Likert
- Ice Breaker
 - Analogy
 - Word Scramble

Multiple Choice Question

A multiple choice question may have up to 10 answer options.

Create a Multiple Choice Question

1. Select **Multiple Choice** from the *Question Type* drop-down menu.
2. Enter the **question** in the **question text** box provided. Enter the **answer choices** in the **answer text** box provided.

The screenshot displays the TurningPoint software interface. The main slide area shows a question: "How many planets are in our solar system?" with four options: A. 9, B. 10, C. 8, and D. 4. A bar chart below the options shows that 100% of respondents selected option A (9), while 0% selected B (10), C (8), and D (4). The interface includes a menu bar with options like Insert, Design, Transitions, Animations, Slide Show, Review, View, TurningPoint, Storyboarding, Format, Tell me..., and Share. The TurningPoint pane is active, showing various tools and settings. The TurningPoint Slide Pane on the right is open, showing the configuration for the question. It includes sections for Question Options, Polling Options, and Scoring Options. The Scoring Options section shows the Correct Point Value set to 1 and the Incorrect Point Value set to 0. There are checkboxes for Speed Scoring and Show Advanced Scoring. Below these are four rows for answer options, each with a dropdown menu: A Correct, B Incorrect, C Incorrect, and D Incorrect.

- From the **TurningPoint Slide Pane**, select **Slide**. Adjust the **Question Options**, **Polling Options**, and **Scoring Options** as needed.

The image shows a screenshot of the 'TurningPoint Slide Pane' configuration window. The window has two tabs: 'Slide' and 'Objects'. The 'Slide' tab is active. The configuration is organized into three main sections:

- Question Options:**
 - Anonymous
 - Bullet Format: A, B, C, D (dropdown menu)
 - Multiple Responses
- Polling Options:**
 - Automatically Open Polling
 - Show Results
 - After Polling (dropdown menu)
 - First Response Only
 - Response Grid
- Scoring Options:**
 - Correct Point Value: 1 (input field)
 - Incorrect Point Value: 0 (input field)
 - Speed Scoring
 - Show Advanced Scoring

At the bottom, there are four colored rows representing answer choices:

- A: Correct (green background)
- B: Incorrect (red background)
- C: Incorrect (red background)
- D: Incorrect (red background)

Question Options

Anonymous - A question marked anonymous does not track participant list information when polling.

Bullet Format - The bullet format for the answer choices can be changed from the drop-down menu.

Multiple Responses - Multiple responses allow participants to send more than one response to a question. When this box is checked the following options may be set: Response Limit, Allow Duplicates, and All or Nothing Scoring.

Polling Options

Show Results - When checked, the chart is displayed after polling.

First Response Only - When checked, TurningPoint Cloud only accepts the first response sent by each participant.

Response Grid - The response grid displays the participant name by default. As the participants respond, the corresponding box will change color. If polling with an auto list, it is recommended to change the response grid text to **Device ID Only** in the preferences. Then, as the participants respond, a Device ID will appear in the box.

Scoring Options

Correct Point Value - The point value of the correct answer(s) can be set by entering a value in the box provided.

Incorrect Point Value - The point value of the incorrect answer(s) can be set by entering a value in the box provided.

Speed Scoring - When checked, point values will decrease relative to the time polling is kept open.

Show Advanced Scoring - When checked, the answer value and the point value are both displayed. The point value can be changed by entering a new value in the box provided.

True/False Question

A true/false question requires participants to respond with 1/A for true or 2/B for false.

Create a True/False Question

1. Select **True/False** from the *Question Type* drop-down menu.
2. From the **TurningPoint Slide Pane**, select **Slide**. Adjust the **Question Options**, **Polling Options**, and **Scoring Options** as needed.

The image shows a screenshot of the 'TurningPoint Slide Pane' configuration window. The window has a title bar with the text 'TurningPoint Slide P...' and a close button. Below the title bar, there are two tabs: 'Slide' (selected) and 'Objects'. The main content area is divided into three sections:

- Question Options:**
 - Anonymous
 - Bullet Format: A, B, C, D (dropdown menu)
- Polling Options:**
 - Automatically Open Polling
 - Show Results
 - After Polling (dropdown menu)
 - First Response Only
 - Response Grid
- Scoring Options:**
 - Correct Point Value: 1 (input box)
 - Incorrect Point Value: 0 (input box)
 - Speed Scoring
 - Correct Answer:
 - True
 - False
 - No Correct

Question Options

Anonymous - A question marked anonymous does not track participant list information when polling.

Bullet Format - The bullet format for the answer choices can be changed from the drop-down menu.

Polling Options

Show Results - When checked, the chart is displayed after polling is closed.

First Response Only - When checked, TurningPoint Cloud only accepts the first response sent by each participant.

Response Grid - The response grid displays the participant name by default. As the participants respond, the corresponding box will change color. If polling with an auto list, it is recommended to change the response grid text to Device ID Only in the preferences. Then, as the participants respond, a Device ID will appear in the box.

Scoring Options

Correct Point Value - The point value of the correct answer(s) can be set by entering a value in the box provided.

Incorrect Point Value - The point value of the incorrect answer(s) can be set by entering a value in the box provided.

Speed Scoring - When checked, point values will decrease relative to the time polling is kept open.

Correct Answer - Select **True** or **False**. A value of **No Correct** can also be selected if there is no correct answer.
